## Coach/Support Boat Refuelling at St Kilda Marina

We ask all Coach/Support Boats to refuel in the morning

### Instructions on how to use the petrol pump

1. Identify your pump number
2. Insert and remove your credit card
3. Follow instructions on the screen
4. Go to the pump and take fuel
5. Insert Card again and wait for prompt on display.

The Petrol Bowser is about 3.5 Kilometres away from Royal Melbourne Yacht Squadron heading away from the city.

You will find instructions on the Petrol Bowser on how to use it. Please note this Petrol Bowser is shared by the general public. We ask that Coach/Support Boats fill up in the morning to allow Race Management to fill up in the afternoon after racing.

If the petrol pump at St Kilda is not working we would recommend you head over to Royal Victoria Yacht Club (RYVC) at Williamstown.

Please contact **St Kilda Boat Sales- Service Centre** if you need assistance: (03) 9534 8213.

The petrol only takes credit cards.
